Serial No

From the De of P H

Letter No C-57-46 dy 26 3 42

Requests approval to the circumstances reported & the action taken by him in having accepted the tender of Messrs Maruthi Cement Works for Rs 5062-12-0 for the Construction of an elevated reservoir for the Belur water Supply

1) A provision of Rs 2000/- for the work referred to above has been made in the sanctioned estimate of Rs 50 540/- for the Belur water Supply Scheme sanctioned in the G O dated 31 3 1941

2) The Construction work was entrusted to Messrs Maruthi Cement Works previously, but it had to be abandoned and fresh tenders called for as per orders of the Govt. Of the 3 tenders, the tender of M/s Nanjundiah & Sons for Rs 4,800 is the lowest, but they have not furnished the details of the Construction in order to gauge the strength of proposed Construction. The tenders of M/s Maruthi Cement Works is for Rs 5,062-12-0, which results in an excess of Rs 3,062 12-0 (i.e 5,062-12-0 − 2,000-00 = 3 062-12)

In view of the fact that the work was entrusted to them previously and the Contractors have stocked required materials, their tender for Rs 5 062 is although exceeds by Rs 202-12-0 over the lowest tender of Rs 4,800, the DP H has accepted the tender of M/s Maruthi Cement Works for Rs 5,062-12-0 in anticipation of sanction of Govt

3) If the action of the DP H is approved provision will have to be made for the excess of Rs 3,062-12-0, which cannot be met out of the sum sanctioned in the terms of G O without detriment to the Scheme

4) Submitted for orders

For one reason or another, the estimate for the Belur Water Supply has been undergoing frequent Changes. Also the DP H Chooses to send up these Changes in a sporadic form with the result that there is no means of forming a Comprehensive impression of the whole scheme

The DP H now seeks orders / on the action taken on having ordered the Machinery & 2 on the excess

IN MYSORE,
Bangalore, dated, March 23, 1942

MU 77-61-19

Sir,

Re Construction of elevated reservoir in connection with Belur Water Supply

I have the honour to state that in the estimate for Rs 50,540/- for Belur Water Supply scheme sanctioned in Government Order No L 6958-61/M1 110-39-153 dated 31st March 1941 there is a provision of Rs 2,000/- for the above

With his letter No 1281 dated 17-2-42 the Sanitary Engineer submits three tenders received in response to notification dated 26-12-41 advertised in the Mysore Gazette and recommends the acceptance of the tender of Messrs Maruthi Cement Works for Rs 5,062-12-0 stating that Messrs Nanjundiah & Sons who have quoted Rs 4,800/- (which is the lowest) have not furnished any drawing of the details of construction, in the absence of which it is not possible to say whether the lower tender provides for the required strength etc , in construction

The acceptance of the tender of Messrs Maruthi Cement Works will mean an excess of Rs 3,062-12-0 over the estimated provision This excess, the Sanitary Engineer reports, will have to met from an extra provision as there are no items in the sanctioned estimate from which enough savings can be anticipated to meet the excess A copy of the Sanitary Engineer's letter dated 17-2-42 is enclosed

In view of the uncertainty of market I have this day accepted the tender of Messrs Maruthi Cement Works in anticipation of approval of Government and returned the same to the Sanitary Engineer for further needful action

P T O

I request you to be so good as to obtain and convey approval of Government to the action taken with orders for meeting the excess of Rs 3,062-12-0

I have the honour to be,
Sir,
Your most obedient servant,

O Balasingam
Director of Public Health

Letter No 1281 dated 17-2-42 from the Sanitary Engineer, Bangalor to the Director of Public Health in Lysore, Bangalore

Re Construction of elevated reservoir in connection with Belur Water Supply-

In continuation of this office letter No 1093 dated January 16, 1942, reporting that fresh tenders have been called for the above, I have the honour to submit herewith three tenders received in response to the notification dated 26th December 1941 calling for tenders

In this notification, details of the foundations after actually putting down trial pits, have been furnished So far as the C I pipes to be fixed inside the R C C work are concerned, they are already provided for separately in the estimate, so that their purchase will not lead to any excess over the provision already made

Out of the 3 tenders received, the lowest is that of Messrs Nanjundiah & Sons for Rs 4,800/- but these contractors have not furnished any drawing of the details of construction They only say that the design will be submitted on acceptance of tender The next quotation is of Messrs Maruthi Cement Works at Rs 5,062-12-0 while the last is of Messrs Murthy and Murthy at Rs 5,500/-

The estimated cost for the construction of the elevated reservoir is Rs 2,000/- so that acceptance of any of the tenders will lead to an excess over the estimate There are no items in the sanctioned estimate, from which enough of savings can be anticipated to meet this excess, and hence a provision of further sum of money is required in order to meet the same

Of the three tenderers Messrs Maruthi Cement Works were the accepted contractors for the construction of the first reservoir at Belur, they had constructed the pillars of the elevated reservoir in the first instance, and according to the instructions issued by Government the same was dismantled They have all the materials stocked at the spot The execution of the original work was stopped for no fault of the contractors, and they would be in order in demanding payment for the materials collected if the work

P T O

work is not given to them now Hence I feel that the work ought to be entrusted to them The difference in cost between their tender and the lowest is only Rs 262-12-0, but in the absence of the drawings of the proposed reservoir, it is not possible to say if the lower tender of Rs 4,800/- provides for the required streng n etc , in construction I, therefore, feel that it is not desirable to take this tender into account and I recommend that the tender of Messrs Maruthi Cement Works be accepted

Sr Belur Water Supply

With reference to your letter No C 5-7-42 dt 23 3 42 on the subject, I am directed to Communicate the Government sanction to your action in having accepted the tender of Messrs Manubhai Canaiah Works for Rs 3062-12-0 the Contractors of elevated reservoir

As regards the excess of Rs 3062 12-0, it has to be shared by the Belur Municipality also according to the scheme I am to forward at an

Notes of

Commander Read for one reason or another, the Estimate has been undergoing frequent Changes. Good Conduct is necessary that You should without delay draw up a Revised Estimate including all the Changes so far ordered & those in immediate prospect, and send it up to the D.C. Stores for transmission to Govt duly Countersigned by the R.S.N. Officer Resident Naval Rep Clyde together with the necessary Reduction of the Cl for making the extra Cost involved

It is regretted that action be taken immediately on the foregoing lines your letter under reply does not show the progress made in the execution of this work Drawings of which was sanctioned already

Hope will be given early & immediate action in this behalf
